7-9 Kettering Road, Abington Square, Northampton. NN1 4AJ

As we age fine lines are produced by a combination of loss of volume and elasticity of the skin. Daily expressions such as frowning, squinting and smiling can produce fine lines to appear around the eyes and forehead over time. The use of a toxin called Botulinum can be used to relax the movement of these muscles. The results reduce and in some cases prevent formation of these fine lines.

ANTI WRINKLE INJECTIONS

One area	£180.00
----------	---------

Two areas	£260.00
-----------	---------

Three areas	£300.00
-------------	---------

Please note that only the frown and crows feet areas can be treated independently. If forehead lines are to be treated these would have to be treated in conjunction with frown lines in order to ensure a good aesthetic result is achieved. Therefore this combination is charged as two areas.

FILLERS

Prices from	£200.00
-------------	---------

Prices start from £200 a syringe and is dependant on the area you would like treated.
